**Keywords:** Tolerance, equality respect make, belief, political accuracy, students, education field, ethics.

### Introduction

Last at times tolerance the problem mass information vehicles , state and international scale wide illuminated . Most analysts thought according to this trend to people relatively tolerance level decline in relationships persistence , other people of life important aspects without touching own position tactical and qualifying inability to express with depending on To us eng big attention adolescence period focus as needed because it seems exactly this period man adults in the world qualifying adapt methods and tools takes over . Teenager tafakkuri still all \_ to something specific childhood concepts with absorbs , however already situations qualifying analysis to do and from him appropriate conclusions issue able \_ Andy of a teenager worldview image is formed and he himself to himself singib gone all things his in life position and in the future in the community self keep methods setting gives \_

### Books Analysis and Methodology

Scientific in the literature tolerance , first and foremost , equality respect to do and recognition , dominance \_ and denial of violence , person culture , norms , beliefs diversity confession reach and this diversity together or har how point of view look superiority is a refusal to reduce . Tolerance others how if so \_ acceptance to do and they are with reciprocal handsome without attitude to be readiness means. Tolerance indifference, conformism, own interests to break do not rotate need \_ First of all , this all interested of the parties reciprocal attitude and active position meaning holds .

Tolerance important composition part vital position own values and interests has if necessary \_ if them \_ protection to do ready , but that 's it with together other of people positions and values respect do mature person is \_

Tolerance man rights instead increase and to peace achieve for necessary and basic value . Own basic in the form of tolerance is this others for their personal and to himself originality respect to do is the recognition of the right . Modern period free entrepreneurship development , policy and authority in democratization decision found and today kunda man rights on international standards for basis become service did new Europe political and social values , tolerance , new social system barpo of basic value as call first times detected . West political thinkers in the XVI-XVII centuries religious wars quoting released intolerance and hostility tolerance can do unable society for tolerance necessity the idea clear expression they did . This is tolerance nations in the middle of peace necessary condition as confession reach historical environment in creating help gave it \_ as a result adopted on December 10, 1948 made Human rights umumjahon declaration basis which was first Europe rights declarations appear was \_

Tolerance xech when forever abstract value or clear a historical situation with depending on without automatic as completion need which was somehow a firm criteria function performance possible not . Tolerance history have and he did that shows that humanity society availability known a stage none how tolerance there is it's not was . Later historical facts based on tolerance concept Demand appear was \_ However, this understanding appear because then he is now West of the world morality rules composition part turned out, but this of the concept content century century changing went . Tolerance soon appear which was idea not . On the contrary atama history researchers As they point out , the Mediterranean centuries interfaith communication principles which was . his innocence power with not \_ \_ word with prove zarurati of others thoughts attention give Demand did and har kind of interpretations functional came out . Historical in terms of tolerance show to be first and the dominant form religious tolerance . Vijdon freedom as tolerance the problem comprehension humanists (E. Rotterdam, T. Mor ) and Reformation for leaders (M. Luther ) belongs to .

nineteenth century tolerance the problem is in liberal philosophy functional out as it is internal and external of freedom expression , alternative point of view views and behavior methods in the middle thoughtful choice to do ability as understood . Then tolerance justice and freedom principles with directly depends on . Society to man known a church rules offer does and individuality feature deprived which was behavior type sets .

Today kunda to students following tolerance concept absorb should be .

Tolerance types	Tolerance signs
"Hidden" tolerance	Tolerance is still there concept acceptance not done . Society philosophical thinking to himself specific properties tolerance does because it still is legendary ong images no to be done take does not come , but in the end philosophical reduce trend there is ... ” “ Absolutely belief contains monotheism , tolerance principal in terms of it is impossible because it is commonality no but religious _ wars , his basis religious tolerance not to do , in the end tolerance legalization ground prepares ... ”
"Cultural" tolerance	“ Secular in society tolerance real universal principles as tan to be taken as a result to reality turns . That's it basically another respect to do possible , ethnic and national features acceptance make , social conditions differences , they to live conditions , professional activity and cultural of traditions o 'ziga specific properties with yield will be . This y here tolerance high spiritual and moral of culture is the result of ... ”.
Scientific mentality in the field of tolerance	“ Science in the field of of others thoughts relatively tolerance this masala still clear not defined on the spot important ; inkor reaching not to the evidence based on theoretical truth tan take Demand does . It is known in the press proetkontra tolerance to be brought possible which was cases, the opponent arguments in the evaluation tolerance to the surface is coming. ”

In society har a person especially young, broad thinking, worldview formation and socio-political to communicate which was curiosity wake up for above har a tolerance species content find is a condition.

Tolerance environment wide and complete installation and this with together of extremism show without active as voz turn away long to be continued reaches \_ That's right thus , above tolerance species come out of this moral quality and his positive positive evaluation with society development different stages tolerance concept har kind of views account received without of the person archa moral quality basic important qualities - respect , compassion , kindness tribes emphasizing transition possible . Socio-cultural tolerance of man moral virtue as “ cultural ” communication successful to be and different social , cultural groups or their representatives with intercultural conflicts the way not to put for formation necessary degan conclusion came \_
