Student of Karakalpak State University named after Berdak

Abstract

One of the most pressing issues today is the most common crimes committed by young people. Systematic organization of preventive work aimed at preventing delinquency and delinquency among young people, protecting them from falling under the influence of various harmful trends, educating young people in the spirit of love for the Motherland, and various measures to ensure that they spend their free time. content, as well as intentional killing or bodily harm. Important work is being done to dramatically reduce crimes such as theft, property damage, fraud, crimes committed against women, young people and minors, as well as early warning of crimes.

Family, neighborhood, study and work are important for the growth and development of every young generation. Taking into account this important rule, we present the following mechanisms for the prevention of crimes and offenses committed among young people and minors.

	Implementation mechanisms	deadlines	Responsible for implementation
1.	In order to prevent crimes and offenses, between minors who have committed a crime and who have committed this crime, who have committed a crime (offence) at the place of residence of minors, previously convicted and prone to commit crimes, between young people and their parents and the public, discussion of crimes among the chairmen of districts responsible leaders;	Constantly	Heads of districts and sectors,
2.	Identification of low-income families or those in need of social protection and provision of social assistance to them, employment of the unemployed living in such families, prevention of disputes;		
3.	Dedicate one hour of the district chairman's time to crime prevention every day.		
4.	Taking into account that hooligan crimes are mainly committed by minors and young people, strengthen prevention measures in public places, on the streets and in other places when youth groups and minors are in the same place;	Constantly	
5.	Identify young people who are not working or studying anywhere and minors who have previously		

	committed any offenses, conduct appropriate preventive conversations with them individually, take measures to prevent the commission of such crimes or offenses in the future;	Constantly	
6.	Carrying out continuous measures to prevent cases of hooligan crimes, mainly among young people and underage students, with the use of edged weapons.		
7.	Ensuring that crimes committed on a daily basis are properly communicated to responsible officers.		

Practical measures (proposals) for the wide use of the capabilities of the global information network Internet in the prevention of crimes and offenses committed among young people and minors, and the process of their elimination.

	Practical exercises (suggestions)	deadlines
1.	Prevent the commission of serious or especially serious crimes committed in the future by promoting them through the media and social networks;	Every month continuously
2.	Installation of video surveillance equipment and connection to a security post in "hotbeds of crime", densely populated areas, houses of entrepreneurs, high-income population;	
3.	Taking into account the fact that young people and minors spend a lot of time on social networks, as a result of which they become involved in various religious movements and many other negative situations, control (check) their mobile phones, computers and other devices.	

In conclusion, we can say that the practical mechanisms and proposals developed in the field of prevention of offenses and offenses committed among young people and minors serve to prevent or hinder the commission of crimes.
